Conference Objectives

This conference will address the complex landscape of chronic pain treatment across the continuum of primary and specialty care including education on pharmacological and non-pharmacological options.

The curriculum is intended for participants with fundamental as well as advanced knowledge of chronic pain. The focus of the meeting is on clinical topics of ethical prescribing for pain patients, interventional pain treatments, options and advances, palliative care, pain related sleep issues and provider burnout.

At the conclusion of this program, healthcare providers will be able to:

- Discuss new pharmacologic options for managing chronic pain including neuropathic pain, and osteoarthritis.
- Review the relationship between sleep and chronic pain.
- Discuss the best practices for interventional spinal cord stimulation and intrathecal drug delivery systems.
- Present and discuss case histories using various therapeutic approaches and techniques.
- Discuss the use of acupuncture and Chinese herbal medicine in the management of chronic pain.
- Recognize the basis of burnout, identify the signs of burnout and review mitigation strategies for minimizing the adverse effects.

The Southern Pain Society

The Southern Pain Society (SPS) was established in 1986. The Southern Pain Society's mission is to serve people with pain by advancing research and treatment and to increase the knowledge and skill of the regional professional community.

Visit www.southernpainsociety.org to join and take advantage of the discounted registration fee.

Poster Presentations

Each year, we host a poster session where professionals and learners can showcase their research and projects. Posters can be clinically or research oriented. Please see the SPS website at www.southernpainsociety.org for details on submission.
